Application Scenarios

• Group discussion class, interactive class

Program Features

• The blackboard content can be scanned to save and share

• One-click interaction: during a classroom lecture, the teacher's tablet can be displayed on the same screen to all groups

• Smart blackboard eraser, erases physical and electronic handwriting simultaneously

• Teachers can send class tests and discussion topics to all group

• Mobile devices such as mobile phones and tablets can also join by scanning the QR code

• It can be equipped with electronic class cards, supporting functions such as class schedule display, attendance statistics, face sign-in, etc., which is convenient for teaching management
